Causality The Central Philosophy Of Buddhism

Counterfactual Theories of Causation (Stanford Thomism - Wikipedia)

In philosophy, Aquinas' disputed questions and commentaries on Aristotle are perhaps his best-known works. In theology, his Summa Theologica is amongst the most influential documents in medieval theology and continues to be the central point of reference for the philosophy and theology of the Catholic Church.

10.01.2001 · The central notion of the new theory is that of influence: (6) Where c and e are distinct events, c influences e if and only if there is a substantial range c₁, c₂, ... of different not-too-distant alterations of c (including the actual alteration of c) and there is a range e₁, e₂, ... of alterations of e, at least some of which differ, such that if c₁ had occurred, e₁ would have ...
