Chicago Independent "Frederick H. Swanson has edited Fraser's voluminous journals into a single volume covering three trips taken from 1914 to 1916. Fraser conveys impressions of the land that will fascinate any reader who wonders what the canyon country was like before it became a popular tourist destination - and one that will inform historians interested in early accounts of the region. Accompanied by a selection of photographs taken by Fraser and his fellow travelers, Journeys in the Canyon Lands brings to life the Southwest's breathtaking backcountry on the brink of discovery."

Laws of the State of New-York, Passed at the Forty-second, Forty-third and Forty-fourth Sessions of the Legislature The wild inside story of the birth of CNN and dawn of the age of 24-hour news How did we get from an age of dignified nightly news broadcasts on three national networks to the age of 24-hour news channels and constantly breaking news? The answer—thanks to Ted Turner and an oddball cast of cable television visionaries, big league rejects, and nonunion newbies—can be found in the basement of an abandoned country club in Atlanta. Because it was there, in the summer of 1980, that this motley crew launched CNN. Lisa Napoli’s Up All Night is an entertaining inside look at the founding of the upstart network that set out to change the way news was delivered and consumed, and succeeded beyond even the wildest imaginings of its charismatic and uncontrollable founder. Mixing media history, a business adventure story, and great characters, this is a fun book on the making of the
world we live in now.

The Grand Canyon: An Encyclopedia of Geography, History, and Culture Reg Adkins was born in Perth, Western Australia in 1926, went to Inglewood State School and after three years at Guildford Grammar School completed his education at the age of 16. From the time he was 11 years old his ambition was to be a pilot. Joining the RAAF in October 1944 he was too late for pilot training but spent four and a half years as an Armourer in the service he loved. Learning to fly at the Royal Aero Club of W.A. at Maylands Aerodrome in 1948 was the first step up the ladder towards achieving his ambition. Following an instructor rating and employment at the club for eighteen months he was well on his way when he stepped out of a Tiger Moth into a DC-3 to become one of the first post-war Aero Club trained pilots to be accepted into the airlines. In 1955 he joined MacRobertson Miller Airlines. After a career spanning 33 years, flying DC-3s, F.27s and F.28s all over W.A. and the Northern Territory and amassing a total of 21,000 hours he retired in 1986 at the top of the ladder as Senior Captain. To use his own words, “How could anyone have been so lucky?” I Flew For MMA is a rollicking story covering the massive change in Western Australia’s aviation history, from the days of post-World War Two flying unpressurised piston-engined DC-3s with virtually no navigation aids and the most basic of equipment and accommodation to the introduction of the comfortable and fast F.27 turboprop, then to the magical jet era and the state of the art F.28. Reg and his colleagues really were the trail-blazers of post-war flying up to the modern age. But I Flew For MMA is more than just a terrific historical record of flying in W.A.
and the N.T. It lays bare the highs and the lows of being an airline pilot. The personalities, the family aspects, the industrial battles, and the emotional trials and tribulations that go with being responsible for the lives of the passengers in sometimes trying and stressful conditions, all the while being mindful of the desire to “get the job done”.

The Bitterroot and Mr. Brandborg Horror novel about a slow homicidal gardener who goes on a killing spree when he feels threatened.

Bibliographic Index This single-volume encyclopedia examines the Grand Canyon in depth, from the native peoples who have survived there for centuries to the explorers who charted its vast expanses and to the challenges that Grand Canyon National Park faces. • Includes a chronology of important events in the history of the Grand Canyon, helping readers to hone in on key events that occurred during its history • Presents a chronology of important events in the history of the Grand Canyon, helping readers to focus on key events that occurred during its history • Offers a Grand Canyon "at a glance" section that allows readers key statistics about the park • Provides an appendix that gives readers the chance to explore "firsts" in the history of the Grand Canyon as well as to plot the GPS coordinates of major sites at the national park • Features
photos from the authors' personal research travels that illuminate the text in such a style as to be different than tour books and trail guides

Heart of the Living God A look into the life and passion of David D. Rust (1874-1963), a pioneer in adventurous backcountry guided tours of the Colorado Plateau province of Utah and Arizona, who led month-long pack trips through a mind-boggling variety of cliffs, mesas, mountaintop overlooks, and hidden desert canyons.

Energy and the Aged, a Challenge to the Quality of Life in a Time of Declining Energy Availability

Choice A profusely illustrated history of moviemaking in Utah, from the early twentieth century to the present. For more than 100 years, the magnificent scenery and locales of Utah have played host to hundreds of Hollywood films and TV episodes, including memorable films such as The Searchers, 2001: A Space Odyssey, Planet of the Apes, Easy Rider, Butch Cassidy and the Sundance Kid, Indiana Jones and the Last Crusade, Thelma & Louise, and Forrest Gump. This book gives readers the inside scoop on how these films were made, what happened on and off set, and more. Author and film historian James V. D’Arc provides a wealth of trivial factoids for movie buffs, including anecdotes about the interactions of Utah locals with actors and crew. New and updated text and photos have been added to the previous edition (When Hollywood Came to Town) to bring this edition up to date with movies and TV shows filmed in Utah.
since 2010. James V. D’Arc was curator of the BYU Motion Picture Archive at the Harold B. Lee Library, Brigham Young University, for 41 years. He lives in Orem, Utah.

Wonders of Sand and Stone Maness asks us to “tie up our sneakers, for we are going to have some fun as we hike into the Grand Canyon of Love. Love is the treasure of life. It is Love all the way. Nothing else really matters outside of Love. Best of all, our Love will only get better in heaven.” The treasured ability to have loving relationships is God’s gift to us in our Imago Dei—the image of God we all share. Likewise, what we know of Love this side of heaven is but a dusty image of what God experiences. “I want to get personally involved,” says Maness. “Can we have a free-will relationship with anyone, even God, if all of what we do and think is settled? I don’t think so. Love is greater than that, and I shall prove that, and that is indeed a Grand Canyon.” Manes brings some of the brain-splitting complexities of this to light with good humor, introduces dynamic foreknowledge, and challenges Classical Theism’s avoidance of Love. And he exposes some foul play in the process. That’s the first half of the book. For those wanting to strike out on their own (wanting to see more of the depth and diversity of the Grand Canyon), the second half contains reviews of about 60 major authors, a 4,000+ Abysmal Bibliography, and a huge index to just about everything in the book. Maness has thrown a gauntlet before the Classical Theists. So tie up your sneakers and take a hike with Michael G. Maness as he walks with you into the Grand Canyon. see more at www.PreciousHeart.net
The Gardener Meticulously written, "The Bitterroot and Mr. Brandborg" tells the story of Guy M. Brandborg and his impact on the practices of the U.S. Forest Service. It articulates Brandborg's Progressive-era idealism and is based on extensive archival research in collections throughout the Rockies and the Northwest, including the Brandborg family papers.

The Alcalde A comprehensive look at the pioneer history of the Grand Canyon region, from its earliest residents to the creation of the national park at the end of the pioneer era (circa 1920). Included are nearly 200 historical photographs, many never published before, and 12 custom maps of the region.

Rust in Peace As the magazine of the Texas Exes, The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for "mayor" or "chief"
magistrate"; the nickname of the governor who signed UT into existence was "The Old Alcalde."

The Alcalde The Siege of Sarajevo remains the longest siege in modern European history, lasting three times longer than the Battle of Stalingrad and over a year longer than the Siege of Leningrad. Reporting the Siege of Sarajevo provides the first detailed account of the reporting of this siege and the role that journalists played in highlighting both military and non-military aspects of it. The book draws on detailed primary and secondary material in English and Bosnian, as well as extensive interviews with international correspondents who covered events in Sarajevo from within siege lines. It also includes hitherto unpublished images taken by the co-author and award-winning photojournalist,
Paul Lowe. Together Morrison and Lowe document a relatively short but crucial period in both the history of Bosnia & Herzegovina, the city of Sarajevo and the profession of journalism. The book provides crucial observations and insights into an under-researched aspect of a critical period in Europe's recent history.

Roads in the Wilderness

Utah Historical Quarterly Phantom Ranch is nestled in the Grand Canyon basin on the Colorado River—a location hardly visible from the rim and only accessible after a journey through scores of geologic layers. The only way there is by river rafting, hiking, or mule, and with each foot of the journey, the traveler descends 30,000 years in geologic time. While at Phantom Ranch, the view looking above is of 1.7 billion years of geology, all swirling together in an alphabet of colors. Grand Canyon’s Phantom Ranch is the story of the rustic buildings designed by architect Mary Jane Colter in 1921, of the park’s first peoples, river rafters, the
early trail and bridge builders, and dramatic flash floods. When travelers leave Phantom Ranch, they are never the same. For some of them, departing is as if they have just said good-bye to an old friend.

Pioneers in Historical Archaeology

Grand Canyon's Phantom Ranch

The Journal of Arizona History In this unique volume, twelve pioneers of historical archaeology offer reminiscences of the early part of their respective careers, circa 1920 to 1940. Each scholar had to overcome numerous biases held by historians and archaeologists-thus each chapter documents a step in the field's march from a marginal to a mainstream discipline. The book makes for fascinating reading for archaeologists, anthropologists, and historians of science, and reminds us of the words of C.H. Fairbanks: "what is past is prelude; study the past."

Dolly and Zane Grey Popular western writer Zane Grey was a literary celebrity
during his lifetime and the center of a huge enterprise based on his writing, which included books, magazine serials, film and stage versions of his stories, even comic strips. His wife, Dolly, closely guided Grey's career almost from its beginning, editing and sometimes revising his work, negotiating with publishers and movie studios, and skillfully managing the considerable fortune derived from these activities. Dolly maintained the facade of a conventional married life that was essential to Grey's public image and the traditional middle-class values his work reflected. This facade was constantly threatened by Grey's numerous affairs with other women. The stress of hiding these dalliances placed a huge strain on their relationship, and much of Zane and Dolly's union was sustained largely by correspondence. Their letters--thousands of them--reveal the true nature of this complex partnership. As edited by Candace Kant, the letters offer an engrossing portrait of an extremely unorthodox marriage and its times.

I Flew For MMA

Up All Night The Colorado River Plateau is home to two of the best-known landscapes in the world: Rainbow Bridge in southern Utah and Monument Valley on the Utah-Arizona border. Twentieth-century popular culture made these places icons of the American West, and advertising continues to exploit their significance today. In Rainbow Bridge to Monument Valley, Thomas J. Harvey artfully tells how Navajos and Anglo-Americans created fabrics of meaning out of this stunning desert landscape, space that western novelist Zane Grey called “the storehouse of unlived years,” where a rugged, more authentic life
beckoned. Harvey explores the different ways in which the two societies imbued the landscape with deep cultural significance. Navajos long ago incorporated Rainbow Bridge into the complex origin story that embodies their religion and worldview. In the early 1900s, archaeologists crossed paths with Grey in the Rainbow Bridge area. Grey, credited with making the modern western novel popular, sought freedom from the contemporary world and reimagined the landscape for his own purposes. In the process, Harvey shows, Grey erased most of the Navajo inhabitants. This view of the landscape culminated in filmmaker John Ford’s use of Monument Valley as the setting for his epic mid-twentieth-century Westerns. Harvey extends the story into the late twentieth century when environmentalists sought to set aside Rainbow Bridge as a symbolic remnant of nature untainted by modernization. Tourists continue to flock to Monument Valley and Rainbow Bridge, as they have for a century, but the landscapes are most familiar today because of their appearances in advertising. Monument Valley has been used to sell perfume, beer, and sport utility vehicles. Encompassing the history of the Navajo, archaeology, literature, film, environmentalism, and tourism, Rainbow Bridge to Monument Valley explores how these rock formations, Navajo sacred spaces still, have become embedded in the modern identity of the American West—and of the nation itself.

Wayne County Nebraska History From Delicate Arch to the Zion Narrows, Utah's five national parks and eight national monuments are home to some of America's most amazing scenic treasures, created over long expanses of
geologic time. In Wonders of Sand and Stone, Frederick H. Swanson traces the recent human story behind the creation of these places as part of a protected mini-empire of public lands. Drawing on extensive historical research, Swanson presents little-known accounts of people who saw in these sculptured landscapes something worth protecting. Readers are introduced to the region's early explorers, scientists, artists, and travelers as well as the local residents and tourism promoters who worked with the National Park Service to build the system of parks and monuments we know today, when Utah's national parks and monuments face multiple challenges from increased human use and from development outside their borders. As scientists continue to uncover the astonishing diversity of life in these desert and mountain landscapes, and archaeologists and Native Americans document their rich cultural resources, the management of these federal lands remains critically important. Swanson provides us with a detailed and timely background to advance and inform discussions about what form that management should take.

Grand Canyon's Uncle Jimmy Owens, The FEATURING A FOREWORD BY SLASH A BEHIND-THE-SCENES LOOK AT THE MAKING OF MEGADETH'S ICONIC RECORD, RUST IN PEACE, BY THE BAND'S LEAD VOCALIST AND GUITARIST When Rust in Peace was released in 1990, the future of Megadeth was uncertain. Fresh off their performance at the record-breaking Monsters of Rock festival, and with knockout new albums from Slayer, Anthrax, and Metallica dominating the charts, the pressure to produce a standout statement record was higher than ever. In Rust in Peace: The Inside Story of the Megadeth Masterpiece, the
band's lead vocalist and guitarist, Dave Mustaine, gives readers a never-before-seen glimpse into the artistry and insanity that went into making the band's most iconic record. He recounts the arduous task of hiring the band and supporting cast, of managing egos and extracurriculars during the album's ensuing success, and succumbing to the pressures of fame and fortune—which eventually forced the band to break up. And yet, Megadeth's demise was just the beginning; the birth pangs of the record were nothing compared to what came next. Alcohol, drugs, sex, money, power, property, prestige, the lies fed to the band by the industry—and the lies they told each other—threatened to eat away at the band's bond like rust, devouring it until only the music survived.
