Through these cases, you will get a glimpse of strategic decisions taken by His Highness Sheikh Mohammed and how these decisions taken by the UAE Government have led to the creation of one of the most connected cities and competitive countries in the world. The book is divided into six sections: Government leadership, national competitive advantage, social and sustainable development, national human capital development, entrepreneurship and government systems. The UAE 2021 Vision aims for UAE to be one of the top 10 countries in the world. The future focus for UAE is to increase competitiveness in foreign markets especially looking at trade, entrepreneurship and focusing on seven high-value adding innovation sectors like renewable energy, transport, education, health, technology, water, and space.
