Indien in britischen Augen

This volume explores the history of the Delhi college - considered the centre of Delhi Renaissance and the meeting ground between British and Oriental culture before 1857 - against the background of both traditional scholarship and the British education policy in the first half of the nineteenth century.

The Asiatic Journal and Monthly Register for British India and Its Dependencies

India's Political Administrators is a revised and updated edition of the now classic political study of India's administrators before and after independence. This highly original study shows administrative continuities across 1947 and explains the consequences of these continuities for the modern Indian state. The focus is primarily on the Indian Civil Service and its successor, the Indian Administrative Service, and the book draws on the autobiographical reminiscences of the men and women who served in them, as well as on interview material and unpublished papers. The book also makes a significant contribution to current research on political aspects of the work of elite administrators. More fundamentally, it concentrates on a neglected area of theorizing about the state by explaining how state forms are reproduced through time despite changes in the political environment.

Charles Trevelyan and the Great Irish Famine

The third book in the Charles Lenox series finds the gentleman detective trying to balance a heated race for Parliament with the investigation of the mysterious simultaneous deaths of two veteran reporters. It's Christmas, 1866, and amateur sleuth Charles Lenox, recently engaged to his best friend, Lady Jane Grey, is happily celebrating the holiday in his Mayfair townhouse. Across London, however, two journalists have just met with violent deaths—one shot, one throttled. Lenox soon involves himself in the strange case, which proves only more complicated as he digs deeper. However, he must leave it behind to go north to Stirrington, where he is fulfilling a lifelong dream: running for a Parliamentary seat. Once there, he gets a further shock when Lady Jane sends him a letter whose contents might threaten their nuptials. In London, the police apprehend two unlikely and unrelated murder suspects. From the start, Lenox has his doubts; the crimes, he is sure, are tied, but how? Racing back and forth between London and Stirrington, Lenox must negotiate the complexities of crime and politics, not to mention his imperiled engagement. As the case mounts, Lenox learns that the person behind the murders might be closer to him—and his beloved—than he knows.

India's Political Administrators

Sir Charles Lyell (1797-1875) was one of the most renowned geologists of the nineteenth century. He was awarded the Copley Medal by the Royal Society in 1858 and the Wollaston Medal by the Geological Society of London in 1866 for his contributions to geology. Lyell's most important contribution to modern geology was his refining and popularising the geological concept of uniformitarianism, the idea that the earth has been formed through slow-acting geological forces. This biography, first published in 1881 and edited by his sister-in-law K. M. Lyell, provides an intimate view of Lyell's personal and professional life through the inclusion of his correspondence with family, friends and academic peers. His changing ideas concerning the validity of the theory of natural selection and other geological ideas are also examined through the inclusion of extracts from his private journal. Volume 2 contains Lyell's later career from 1837-1875.

Life, Letters and Journals of Sir Charles Lyell, Bart

The twentieth century witnessed an unprecedented growth of research and publication on the history of Britain's empire, the Commonwealth, and British expansion overseas. Historical work by area specialists has transformed the state of knowledge concerning colonial North America, India, the Caribbean, sub-Saharan Africa, South and South-East Asia, the Pacific, and Australasia. Much has been written about Britain's interests and presence in areas and societies never formally subjected to British rule, such as Latin America, and the Middle and Far East. Most recently, a preoccupation with the reciprocal impact of overseas expansion and colonial possessions on Britain itself has produced a rapidly growing historiography. Publication on this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests. Britain's overseas history has never been well supplied with comprehensive bibliographical aids, and, despite extensive public interest in the subject, the position has steadily worsened. Following the recent Oxford History of the British Empire, this volume is therefore designed to provide a general source of reference and bibliographical guidance, at once wide-ranging, up-to-date, and accessible.

Autobiography of Charles Biddle

The Delhi College

"Charles Trevelyan, the assistant secretary to the Treasury during the Famine years, has received the bulk of the blame for the government's parsimonious response to the catastrophe. This book examines history's condemnation of Trevelyan. It reveals how, and why, he came to be demonized as the architect of policies aimed - according to some commentators - at the deliberate depopulation of Ireland."

"Drawing extensively on Trevelyan's original correspondence and also on that of his political masters, his colleagues, subordinates and others in the field, Robin Haines restores the portrait of a dedicated civil servant, an opinionated man caught up in the tensions of Westminster, Whitehall and Dublin, yet determined to deliver relief to a country to which he was attached by ties of affection, sympathy, and ancestry."--BOOK JACKET.

The India We Left

The Complete Works of Charles Spurgeon, Volume 86

Napier's heroic and controversial military career is documented in this four-volume biography, published in 1857 by his brother.

The India We Left: Charles Trevelyan, 1826-65, Humphrey Trevelyan, 1929-47

Whether called 'Arabian' or 'Persian,' the Gulf is one of the most politically important regions of the world, and its history is necessary in understanding the contemporary Middle East. Paul Rich draws on previously closed archives to document the actual heritage of the area and dispel the myths, showing that the influences of Britain and India are far deeper than commonly acknowledged, and that the sheikhs are actually the creation of the British Raj.

The Speech of the Right Hon. Charles James Fox, in the House of Commons, on Tuesday, March 24, 1795

Charles Spurgeon (19 June 1834 – 31 January 1892) is one of the church's most famous preachers and Christianity's foremost prolific writers. Called the "Prince of Preachers," he was one of England's most notable ministers for most of the second half of the nineteenth century, and he still remains highly influential among Christians of different denominations today. His sermons have spread all over the world, and his many printed works have been cherished classics for decades. In his lifetime, Spurgeon preached to more than 10 million people, often up to ten times each week. He was the pastor of the congregation of the New Park Street Chapel (later the Metropolitan Tabernacle) in London for 38 years. He was an inexhaustible author of various kinds of works including sermons, commentaries, an autobiography, as well as books on prayer, devotionals, magazines, poetry, hymns and more. Spurgeon was known to produce powerful sermons of penetrating thought and divine inspiration, and his oratory and writing skills held his audiences spellbound. Many Christians have discovered Spurgeon's messages to be among the best in Christian literature. Edward Walford wrote in Old and New London: Volume 6 (1878) quoting an article from the Times regarding one of Spurgeon's meetings at Surrey: "Fancy a congregation consisting of 10,000 souls, streaming into the hall, mounting the galleries, humming, buzzing, and swarming—a mighty hive of bees—eager to secure at first the best places, and, at last, any place at all. After waiting more than half an hour—for if you wish to have a seat you must be there at least that space of time in advance—Mr. Spurgeon ascended his tribune. To the hum, and rush, and trampling of men, succeeded a low, concentrated thrill and murmur of devotion, which seemed to run at once, like an electric current, through the breast of every one present, and by this magnetic chain the preacher held us fast bound for about two hours. It is not my purpose to give a summary of his discourse. It is enough to say of his voice, that its power and volume are sufficient to reach every one in that vast assembly; of his language, that it is neither high-flown nor homely; of his style, that it is at times familiar, at times declamatory, but always happy, and often eloquent; of his doctrine, that neither the 'Calvinist' nor the 'Baptist' appears in the forefront of the battle which is waged by Mr. Spurgeon with relentless animosity, and with Gospel weapons, against irreligion, cant, hypocrisy, pride, and those..."
secret bosom-sins which so easily beset a man in daily life; and to sum up all in a word, it is enough to say of the man himself, that he impresses you with a perfect conviction of his sincerity.” More than a hundred years after his death, Charles Spurgeon’s legacy continues to effectively inspire the church around the world. For this reason, Delmarva Publications has chosen to publish the complete works of Charles Spurgeon.

Charlie Wheelan and his family do what others dream of: They take a year off to travel the world. This is their story. What would happen if you quit your life for a year? In a pre–COVID-19 world, the Wheelan family decided to find out; leaving behind work, school, and even the family dogs to travel the world on a modest budget. Equal parts “how-to” and “how-not-to”—and with an eye toward a world emerging from a pandemic—We Came, We Saw, We Left is the insightful and often hilarious account of one family’s gap-year experiment. Wheelan paints a picture of adventure and connectivity, juggling themes of local politics, global economics, and family dynamics while exploring answers to questions like: How do you sneak out of a Peruvian town that has been barricaded by the local army? And where can you get treatment for a flesh-eating bacteria your daughter picked up two continents ago? From Colombia to Cambodia, We Came, We Saw, We Left chronicles nine months across six continents with three teenagers. What could go wrong?
